<b>Cilji in kompetence:</b>	<b>Objectives and competences:</b>
<p>Študenti dobijo temeljna teoretična in praktična znanja in spremnosti za vodenje vadbe v vodi malčkov in učenje plavanja v predšolskem obdobju po različnih metodah. Spoznajo različne stile vodenja pedagoškega procesa in različne metode učenja plavanja. Znajo izbrati primerno v specifičnih situacijah. Prav tako spoznajo in znajo kritično ovrednotiti druge dejavnike, ki vplivajo na proces (ocenjevanje stopenj subjektivnih in objektivnih nevarnosti in ustrezna priprava na varno izvedbo vadbe, pripomočki, zasebnost, vloga družine...). Pridobijo naziv učitelj plavanja za malčke po Fredovi metodi, ki je potrjen na SS MIZŠ do junija 2019.</p>	<p>Students receive basic theoretical and practical knowledge and skills to guide exercises in the water of toddlers and swimming lessons in pre-school aged children according to different methods. They get acquainted with various styles of pedagogical processes and different methods of swimming. They are able to choose appropriate methods in specific situations. They also get to know and are able to critically assess other factors, which influence the process (assessment of grades of subjective and objective dangers and appropriate preparation for a safe execution of the lesson, swimming aids, privacy, role of the family ...). They get the title Swimming teacher for toddlers according to Fred's method, which is confirmed by SS MIZŠ until June 2019.</p>
