## 2<sup>nd</sup>. SUMMER SCHOOL OF WATER SPORTS- KORČULA-BADIJA- 2013.

Professor Goran Oreb

The city of Korčula, in the opinion of its many distinguished visitors throughout its rich history, is one of the most attractive and best preserved towns from the Middle Ages in the Mediterranean area. The island of the same name is one in the long string of 'pearls' forming great archipelago that runs along the eastern coast of the Adriatic Sea; rightfully the pride of the Republic of Croatia.

Badija is the largest island in the Korceula Archipelago located in the near vicinity of Korceula Island in Croatia. The most dominant feature of the island is Franciscan Monastery built in 14th century.
